

The ARROW Illusion!

MURDEROUS MATHS

- Print these shapes out. Colour in one side of the paper.
- Fold along the dotted lines to form a hexagon shape (when seen from the top).
- Stick the overlapping flaps together.
- Stand the shape upright.
- If you look from exactly the right direction, you'll see an arrow.
- Turn the shape round 180° .
- The arrow still points in the same direction!
